

Course Code: CSE2259
Course Title: Web Technologies
Lab sheet 3

Problem Statement: Using Basic HTML tags, design a **Web page to collect information to register a student in a college for a particular course** as given in the diagram below.

Instructions:

1. Tags to be used- <p>,<pre>,<u>,<address>,,<i>,,<u>,<hr>,,<a>,<marque>. tags related to table, tags related to list
2. To use attributes – align, background, size, maxlength, autofocus, placeholder, required
3. Any modification asked by the faculty to be done during lab hrs.
4. On clicking a Submit button, a new page should open in a new tab with a welcome message.

Expected Output

Registration.html

Student Registration Form
